Construction Update:

Test Pitting on Penhorn Avenue and Secaucus Road

Construction crews will continue test pitting operations along Penhorn Avenue and portions of Secaucus Road starting on or about Monday, November 23 and concluding on or about Monday, November 30. This work involves small, temporary excavations to identify and verify the location of existing underground utilities in preparation for upcoming water main relocation activities.

Traffic Impacts

Test pitting will be completed in two stages, with temporary traffic patterns implemented during work hours of **7:00am to 4:00pm.**

Stage 1: Secaucus Road and Penhorn Avenue

- **Secaucus Road:** Southbound traffic lanes will be reduced from two (2) lanes to one (1). Northbound traffic lanes will not be impacted.
- **Penhorn Avenue:** Alternating one-way traffic control will be implemented, with the Secaucus Police Department directing traffic through the work area.

Stage 2: Penhorn Avenue

Alternating one-way traffic control will be implemented along Penhorn Avenue, with the Secaucus Police Department directing traffic through the work area.

All lanes will be restored to their normal traffic patterns at the conclusion of each workday.

Access to local businesses will be maintained throughout construction. Access will be maintained for pedestrians and cyclists. Motorists should expect temporary delays, follow posted construction signage and allow additional travel time when traveling through the area.

Duration of Activities

While no construction activities will take place on Thanksgiving, construction will resume on Friday, November 27, 2026. This activity is expected to take place up until Monday November 30th.

The schedule is subject to change based on weather, field conditions and construction progress.
