

# GEOTECHNICAL DRILLINGS FOR UNDERGROUND DATA

**PURPOSE OF WORK:** As part of the Hudson Tunnel Project, GDC's contractor will conduct geotechnical drilling near the southeast corner of 12th Avenue and W. 30th Street. These underground investigations will provide data on soil and rock conditions to support the construction of the 12th Avenue shaft within the bounds of Block 675, Lot 1.

**LOCATION:** Southeast corner of 12th Avenue and W. 30th Street

**SCHEDULE:**

- Start Date: Week of April 14, 2025
- Anticipated Duration: 2 Weeks
- Working Hours: 7:00 AM – 6:00 PM

**NOISE IMPACT:** Occasional noise may be heard during boring operations for subsurface investigation. Noise monitoring equipment will be in place to ensure activities adhere to noise limit requirements.

**TRAFFIC IMPACT:** NO TRAFFIC IMPACTS. All work will be confined to non-traffic areas within the work zone on 12th Avenue and W. 30th Street.
