

CONSTRUCTION NOTICE

WHAT: Secant Pile Wall Installation

WHERE: Palisades Portal Site, North Bergen
(between Tonnelle Avenue and Paterson Plank Road)

WHEN: June 16 — September 19, 2025
7:00 AM to 11:00 PM (Daily)

Beginning June 16, Schiavone Lane Dragados JV (SLDJV) will begin construction of a secant pile wall designed to retain the earth during tunnel portal excavation.

- The operation will employ specialized drilling rigs within the limits of the construction site. Traffic will not be impacted.
- The contractor does not expect any noise/vibration exceedances.

Questions or Concerns?

24/7 Hotline: 1-800-444-1050 Email: PalisadesTunnel@gatewayprogram.org

General Project Overview – The Palisades Tunnel Project will use tunnel boring machines (TBMs) to excavate two parallel tunnels—measuring approximately 5,100 feet long with an inside diameter of 25 feet—through the rock formations of the Palisades. The project also involves building the new Hudson County Shaft, which will be used to remove the TBMs when digging is complete. The project contractor is Schiavone Dragados Lane Joint Venture (SLDJV).
