GDC's contractor will use one-lane and two-lane closures on 12th Avenue northbound and southbound lanes to perform paving and striping operations. Travel lanes will begin to gradually decrease starting at W. 27th Street, and traffic will be reduced to one or two lanes between W. 28th Street and W. 30th Street. As work progresses, closures will alternate between northbound and southbound travel lanes.

Travel lanes in each direction will be maintained at all times. Signage and flaggers will be in place to direct motorists through the construction work areas. Pedestrian access to the sidewalk on the east side will be maintained via a protected detour in the parking lane. The north crosswalk at W 29th St and 12th Avenue will experience brief overnight closures, during which flaggers will be in place to direct pedestrians around the work area.
