

## CONSTRUCTION NOTICE

- WHAT:** Long-term sidewalk closure, pedestrian detour, and vehicle detour
- WHERE:** Western edge of 11<sup>th</sup> Avenue viaduct (near 11<sup>th</sup> Avenue and 30<sup>th</sup> Street)  
Hudson Yards Concrete Casing – Section 3
- WHEN:** As early as January 22, 2026, through December 31, 2026

Starting on or around January 22, 2026, a crane will be stationed on the western edge of the 11<sup>th</sup> Avenue viaduct along with a material staging zone for a period of roughly one year. The crane may be removed and reinstated over this time period.

This work will require pedestrian and vehicle detours. The sidewalk and two westernmost lanes of traffic will be taken out of service. Pedestrians will be detoured onto a 5-foot protected pathway for approximately 20 feet, while vehicles will be safely merged onto an active traffic lane. Means of protection for both pedestrian and vehicle traffic include concrete barriers, plastic barrels, cones, fencing, and signage.
