

CONSTRUCTION NOTICE

WHAT: Construction Work Pause

WHERE: Block 675, Hudson River Park, and the Hudson River

WHEN: February 6, 2026

Effective February 6, 2025, construction of the Manhattan Tunnel and Hudson River Ground Stabilization (HRGS) Projects will be largely paused until additional funding becomes available. The Hudson Yards Concrete Casing-Section 3 (HYCC-3) Project has a separate source of funding (a federal Mega Grant) and will continue.

GDC's contractors have spent the last two weeks winding down work at most sites. Limited construction operations will continue in the short-term, including:

- In the Hudson River, the HRGS team will continue ground stabilization activities in and around the cofferdam through February 18, 2026.

During this time, equipment may be secured and stored on each site, and barges may be demobilized. Supervisors will be retained to ensure the integrity of the space, and regular maintenance, including site-specific snow removal, will occur. Safety is GDC's top priority and all construction sites will be kept safe and secure for the duration of the pause.

For additional information on altered vehicle, bicycle, and pedestrian paths of travel around paused HTP construction sites, please see the following Construction Notices:

- [W. 29th Street](#)
- [12th Avenue](#)
- [Hudson River Park](#)

- [Hudson River](#)

Background

Federal funding for the HTP has been paused since October 1 of last year. Since then, GDC has utilized available funding sources and credit to keep the project moving forward as planned. GDC has now drawn down nearly all available sources and credit.

Pausing the Manhattan Tunnel and HRGS Projects, along with the Palisades Tunnel Project in New Jersey, will result in the immediate loss of nearly 1,000 jobs.

An extended pause would put at risk approximately 11,000 construction jobs on the current projects, as well as the 95,000 jobs and \$19.6 billion in economic activity that construction of the Hudson Tunnel Project is anticipated to generate overall.

For more information on the construction pause, please see [Hudson Tunnel Project Construction To Be Suspended Due To Lack of Federal Funding](#).
