**GATEWAY DEVELOPMENT COMMISSION STATEMENT ON DEVELOPMENT IN NEW YORK, NEW JERSEY'S HUDSON TUNNEL PROJECT LAWSUIT**

“This is good news for the Hudson Tunnel Project, and we anticipate receiving the \$205 million in reimbursement funds from the federal government. While this is a positive step, we need consistent, reliable access to the Hudson Tunnel Project’s federal funding moving forward. GDC continues to pursue all avenues to regain access to all the federal funds for this urgent project, including our lawsuit. We are confident in our legal position and look forward to resolving this important matter.”

**Background**

GDC is working with the Commission’s contractors to plan how to deploy these funds in the most effective way and get workers to the sites to resume some construction as soon as possible.

###

*The Gateway Program is the most urgent infrastructure program in the country – a comprehensive set of rail investments that will improve commuter and intercity services, add needed resiliency, and create new capacity for the busiest section of the Northeast Corridor (NEC). The NEC is the most heavily used passenger rail line in the country hosting more than 2,200 train movements and 800,000 passenger trips daily.*
