**GATEWAY DEVELOPMENT COMMISSION STATEMENT ON DISBURSEMENT OF
FEDERAL FUNDS FOR HUDSON TUNNEL PROJECT**

“Gateway Development Commission (GDC) has received the full reimbursement owed to us from the federal government and now has more than \$205 million available to fund work on the Hudson Tunnel Project. We are working with our contractors to deploy these funds to resume work as soon as possible. Letters will be sent to contractors today, and construction activities are expected to resume next week. We continue to pursue all avenues to secure access to the full amount of federal funding for the Hudson Tunnel Project, including our lawsuit.”

###

The Gateway Program is the most urgent infrastructure program in the country – a comprehensive set of rail investments that will improve commuter and intercity services, add needed resiliency, and create new capacity for the busiest section of the Northeast Corridor (NEC). The NEC is the most heavily used passenger rail line in the country hosting more than 2,200 train movements and 800,000 passenger trips daily.
